*What do I ask a client with a history of...*

## **Cardiac Arrhythmia**

Cardiac arrhythmia is an abnormal heart rhythm.

### Questions:

- How old is the client and when was he/she diagnosed with cardiac arrhythmia?
- What are the symptoms and complications of the cardiac arrhythmia?
- Does the client smoke?
- What type of arrhythmia does the client have and what is the frequency of attacks?
- What was the treatment, when was it done, and was it successful?
- Does the client have a pacemaker?
- Is the client currently experiencing the arrhythmia?
- What is the prognosis of the arrhythmia? Is it benign or serious?
- What is the cardiac evaluation? What is the underlying disease?
- What medications is the client currently taking?
- Does the client have any other forms of heart disease?
- Does the client have any other medical concerns?

**Once these questions are answered, please send an email or fax to me.  
I will respond within 24 hours.**
