What do I ask a client with a history of...

Multiple Sclerosis (MS)

Multiple sclerosis is a chronic, slowly progressive disease of the central nervous system where the nerves degenerate.

Questions:

- How old is the client and when was he/she diagnosed with multiple sclerosis?
- What are the client's symptoms?
- When was the client's last attack, and what is the frequency of attacks?
- What is the degree of neurological and functional disability?
- Has the client had any complications due to MS? How were the complications treated?
- Does the client adhere to the MS diet?
- What medications is the client currently taking?
- Does the client have any other medical concerns?

**Once these questions are answered, please send an email or fax to me.
I will respond within 24 hours.**
